WORK EXPERIENCE

Project Coordinator (Product & Deployment Coordination)
Egeeks Global, Rawalpindi
July 2025 - Present Rawalpindi, Pakistan

- Manage end-to-end deployment delivery across multiple internal teams and tools, holding each project to client SLA expectations and quality standards.
- Plan and track timelines, milestones and competing priorities across active projects using client dashboards, Smartsheet and MS Excel.
- Lead product and project launches by coordinating development, design, sales and marketing teams, ensuring smooth handoffs and on-time delivery.
- Track order processing, product delivery and releases, with quality checks and regular status reporting.
- Manage scope and priority changes with developers, designers and stakeholders, confirming requirements are understood and delivered on scope and schedule.
- Resolve ambiguous requests and shifting priorities with independent judgment, keeping internal teams and clients informed.
- Conduct market research and competitor analysis, translating findings into clear action items for stakeholders.
- Gather feedback from users and internal teams and track performance to recommend data-driven process improvements.
